## LIQUIDITY NORMS TO BE AT PAR WITH COMMERCIAL BANKS

## Niti proposes 3-step process for full-stack digital banks

Neo-banks, small finance banks eligible to apply

FE BUREAU  
New Delhi, July 21

THE NITI AAYOG on Wednesday suggested a roadmap for the setting up of full-stack digital business/consumer banks to deepen the access to financial services in the country.

The think tank also recommended a carefully calibrated three-step approach for digital bank license by the Reserve Bank of India (RBI). In the first phase, a restricted digital bank licence should be given to an applicant with restrictions in terms of volume/value of customers serviced and the like. In the second stage, the licensee will be put in a regulatory sandbox framework by the RBI.

Finally, issue of a 'full-scale' digital bank licence will be contingent on satisfactory performance of the licensee in the regulatory sandbox, including salient, prudential and technological risk management.

## Step-by-step flow for licence

- In the first phase, a restricted DB license to be given to the applicant with restrictions
- The applicant acquiring restricted licence will be put in the regulatory sandbox framework by RBI
- Issue of a 'full-scale' digital bank licence contingent on satisfactory performance of the licensee in the regulatory sandbox

In the policy paper, the Niti Aayog said upon progression from the sandbox with an initial capital of ₹20 crore into the final stage, a full-stack digital business/consumer bank will be required to bring in ₹200 crore capital (equivalent to that required of the Small Finance bank). 'Digital Banks' or DBs referred to in the paper means banks as defined in the Banking Regulation Act, 1949). In other words, these entities will issue deposits, make loans and offer

the full suite of services that the Act empowers them to. As the name suggests, DBs will principally rely on the internet and other proximate channels to offer their services and not physical branches.

As a natural corollary to being a 'bank' in full sense of its legal definition, it is proposed that DBs will be subject to prudential and liquidity norms at par with the incumbent commercial banks. However, DBs offer a differentiated proposi-

tion and as such, there is scope for differentiated treatment in adjacent areas of their operation consistent with treating them identically with incumbent commercial banks, in the critical areas of prudential and liquidity risk, it added.

Given the 'digital-native' nature of banks that will operate under this licence, the licence may require one or more controlling persons of the applicant entity to have an established track record in adjacent industries such as e-commerce, payments, technology.

As with other licenses (payment banks), applicants may have the option to apply in consortium. Existing neo-banks, seeking to upgrade or small finance banks/other regulated entities, are also potential eligible candidates for application.

In order that the licence and the business proposition of a Digital Business bank / Digital Consumer bank remain viable and to promote competition, it should have access to all the key infrastructure enablers in the Indian financial ecosystem such as Aadhaar e-KYC/UPI, IMPS/Central Payment Systems (NEFT/RTGS).

## Surat diamond units cheer RBI nod to ₹ payment for imports

NAYAN DAVE  
Ahmedabad, July 20

THE SURAT-BASED diamond cutting and polishing industry has reason to smile amid overall inflation with the RBI's recent sanction for payments in international trade in Indian rupees.

The move has ushered in a windfall specially for those diamond units which source rough diamonds from Russia. Nearly 30 to 40% of the total diamonds being cut and polished in Surat and other parts of Gujarat are being sourced from Russia.

Generally, diamond units used to pay Russian suppliers using the services of mandatory banks, most of which are based in the US. This was a complex process involving transfer of payment in rupees by the rough diamond importers to the designated bank US based bank, which would convert this into US dollars and finally deposit the payment to the Russian suppliers' bank accounts.

In April this year the US Department of the Treasury's Office of Foreign Assets Control (OFAC) put sanctions on Russian diamond miners Alrosa PJSC in the wake of Russia's invasion of Ukraine. As a result, mandatory banks cut off the Swift Payment System for Russian miners. Due to this development, diamond units in Surat were having issues dealing with Russian suppliers directly. This had led to a disruption in supply of roughs on account of payment related issues.

"The Surat-based diamond industry imports more than \$ 400 million worth of rough diamonds from the Russian miners. The RBI decision would give big relief to the diamond industry," said Dinesh Navadia, president of Gems & Jewellery Export Promotion Council - Gujarat region.

SALE NOTICE  
M/S RAMANA SRI LOGISTICS PRIVATE LIMITED (in Liquidation)

18-3-60/C, Road No.2, Srihari Colony, Sanchi Nagar, Tirupathi-517501, Andhra Pradesh
